SUMMARY

I am a fresh graduate in software engineering with a strong foundation in ASP.NET and web development technologies. Eager to learn and tackle new challenges, I bring a dedicated approach to continuous improvement and problem-solving. My ability to view challenges from different perspectives makes me a valuable asset to any team. I am seeking a position where I can contribute my skills and grow professionally within an innovative organization. I am actively seeking opportunities to contribute my skills and further develop my expertise in a dynamic organization.

EDUCATION

Bachelor Degree of Software Engineering

Philadelphia University   📅 10/2019 - 01/2023

TRAINING / COURSES

-Internship: Full Stack Web

Responsibilities: Participated in the 1 Million Jordanian Coders Initiative.

-Uni Match - efe Jordan : Flutter & Dart (80 hours)

Completed 40 hours of soft skills and English skills training.

SKILLS

Adobe XD	ASP	ASP.NET	ASP.NET Core	bootstrap
Clean Architecture	CSS	Dart	Flutter	Front-end
Github	HTML	Javascript	JMeter	LINQ	PHP
SQL	SQL Server	UI/UX	UI/UX Design	

LANGUAGES

English   Germany

Arabic

EXPERIENCE

Stock Control

Cemomi Group

📅 05/2024   📍 Amman, Jordan

Retail

· I've recently started a new position in Stock Control! In this role, I manage and optimize inventory processes, utilizing a blend of analytical tools and techniques. My key responsibilities include:

 SQL Queries: I regularly use SQL to extract, analyze, and manage large datasets to ensure accurate and timely stock levels.
 Excel Proficiency: Leveraging advanced Excel functions (like Pivot Tables, VLOOKUP, and complex formulas) to track, report, and forecast stock movements.
 Data Analysis: Through detailed data analysis, I identify trends and patterns, helping to improve inventory efficiency and reduce waste

Full Stack Developer

Leading Point Software

📅 Date period   📍 Location

Company Description

· During my six-month training at Leading Point Company, I gained hands-on experience in SQL, C#, .NET, LINQ, ADO.NET, Entity Framework, and APIs. I also worked with MVC and Core frameworks, focusing on front-end development and Clean Architecture principles. My commitment to continuous learning and adaptability in facing challenges position me as a valuable asset to any team.

PROJECTS

I have worked on several projects that showcase my skills in software development. You can find these projects on my GitHub and LinkedIn
